

WILHELM'S CHARMED LIFE.

Fired At by an Assassin in Berlin Yesterday.

CONDUCT UNDER FIRE.

Arrest of Lehmann and His Accomplice.

JOY OF THE GERMAN PEOPLE.

[BY CABLE TO THE HERALD.]

Berlin, May 11, 1878.
Berlin was startled to-day by the news of an attempt to assassinate Emperor William. The Emperor was returning from his usual afternoon ride about half-past three o'clock, and was in company with his daughter, the Grand Duchess of Baden.

Nothing unusual occurred till the Imperial party was passing through Unter den Linden, when, as the carriage neared the Russian Embassy, a tall man, who was standing behind a droschky, near the Central footpath, fired a shot from a revolver, aiming directly at the Emperor.

USED TO FIRE.
In rapid succession the assassin fired two more shots; but, fortunately, all of them missed their mark. The old Kaiser behaved with great coolness, and never for a moment flinched under fire.

ARRESTED WITH HIS ACCOMPLICE.
The assassin, seeing he had failed in his object, attempted to escape, but was captured before he had got thirty feet away from the spot where he had fired the shots. An accomplice who was near him made a desperate attempt to rescue him, but he also was arrested.

A LADY WOUNDED.
The porter of the Russian Embassy, who was an eye-witness of the whole affair, asserts that a lady who was passing by at the time was wounded by one of the bullets intended for the Emperor. No one else appears to have been hurt.

SAFE AND SOUND.
An immense crowd congregated around the spot in a few moments and the greatest excitement prevailed. The Emperor was heartily cheered as he drove off, and the assurance that he had escaped uninjured was hailed with the greatest enthusiasm.

POPULAR OYSTER.
The news spread through the city with incredible rapidity and produced the most intense excitement. Immense crowds gathered in front of the palace, and the Emperor came out repeatedly to show himself in answer to the enthusiastic congratulations of the people.

CONGRATULATIONS FROM AMBASSADORS.
The members of the Ministry who were in town, officers of the army and representatives of foreign Powers hastened to the palace to offer their congratulations, and the Emperor was found as calm and unmoved as if nothing had occurred.

NAMES OF THE PRISONERS.
The police decline to give any information to the public regarding the two prisoners or the motives of the attempted assassination; but I have learned, on the best authority, that the man who fired the shots is a native of Leipzig, named Lehmann, about twenty years of age. The motive is supposed to be religious fanaticism, but nothing positive is known on that point.

ADDITIONAL DETAILS REGARDING THE ATTEMPTED ASSASSINATION OF EMPEROR WILLIAM.
Berlin, May 11—11 P. M.
Two shots were fired into the Emperor William's carriage from the sidewalk without effect. The assassin ran into the middle avenue, followed by a crowd. On an attempt being made to capture him he fired three more shots and threw his revolver away. He was then secured.

CAPTURE OF THE MEN.
The Emperor's carriage was stopped and the footmen sprang from the box and assisted at the capture. A few minutes afterward another individual was seized in the middle avenue, in consequence of an alleged attempt to rescue the assassin.

SUPPOSED NAMES OF THE TWO MEN.
The assassin is a twentieth named Emil Heinrich Max Hoedel, said to be from Leipzig. He was taken to the nearest police station, where a preliminary investigation was instituted. The accomplice arrested is named Krueger, a laborer, belonging to Berlin.

POPULAR SYMPATHY.
There were unceasing demonstrations before the Palace throughout the evening. Dense masses were streaming in from the remotest suburbs to manifest their loyalty and sympathy, singing the national anthem.

AT THE OPERA.
The Emperor went to the opera and Royal Theatre to-night and received great ovations.

PETER COOPER'S SCHOOL.
[BY TELEGRAPH TO THE HERALD.]
Charlotte, N. C., May 11, 1878.
Peter Cooper arrived here to-day on his way to Limestone Springs, S. C., accompanied by Mrs. Abram Cooper, Mrs. Edward Cooper and her daughters, Misses Edith and Anna, and Professor Hoester W. Raymond and wife. He was met at the depot by G. J. Forester, Superintendent of the Atlantic and Charlotte Air Line Railway, and left with him on a special train at 1:35 for Limestone Springs, S. C., two miles from Limestone. The party came through in an elegantly furnished parlor car, in which they expected to reside during their stay at Limestone.

SIX MEN WHIPPED.
Newcastle, Del., May 11, 1878.
Six men were publicly whipped in the jail yard here to-day, each receiving twenty lashes.

THE PAPACY.

FRENCH BISHOPS ORDERED BY POPE LEO TO SUPPORT THE REPUBLIC.

[BY CABLE TO THE HERALD.]

PARIS, May 11, 1878.
I have just learned from a trustworthy source that His Holiness Pope Leo has transmitted instructions to the French bishops to give their support to the Republic as the only government possible to-day in France.

THE INTERIOR CLERGY.
It is also said that His Holiness has asked the French government to open negotiations for the amelioration of the condition of the inferior clergy of France, who are at present, it is claimed, left with the scantiest means of support.

THE POPE'S HEALTH.—REPORTED ASCENDANCY OF THE JESUITICAL PARTY.—THE GERMAN PRIESTS AND THE VATICAN.—BAD EFFECT UPON THE NEGOTIATIONS.

[BY CABLE TO THE HERALD.]
LONDON, May 11, 1878.
The special correspondent of the Standard telegraphs from Rome that he fears that the Jesuitical and violent party has definitely triumphed at the Vatican. "The Pope's health," he says, "is not alarming, but he ought to go away. He desires to go to Perugia, but is unable to resist the pressure put upon him to remain in the Vatican."

THE VATICAN AND THE GERMAN CLERGY.
Cardinal Caterini, Prefect of the Congregation, has written to the German priests who accepted government stipends threatening their suspension if they do not make a public declaration against the May laws and repudiate the stipends.

THE EFFECT OF THE NEGOTIATIONS.
Another despatch from Rome says: "After the publication of Cardinal Caterini's letter concerning the Prussian priests, negotiations between the Vatican and Berlin immediately terminated. 'The negotiations with the other Powers have also failed. The Vatican is stated to have resolved upon a policy of resistance. 'The Pope's health has improved.'"

MEXICO.
COMPLICATED QUESTIONS ARISING, BECAUSE CABINET OFFICERS STILL RETAIN THEIR POSITIONS AS SUPREME JUDGES—NO NEWS OF LERDO.

CITY OF MEXICO, May 3.
A feeling of anxiety exists in political circles. Señors Vallarta, Minister of Foreign Relations; Tagle, Minister of Justice, and García Cadenas, Minister of the Interior, were elected judges of the National Supreme Court. Afterward President Díaz appointed them members of his Cabinet, a license being granted them to obtain from court duties. A question of jurisdiction resulted therefrom between the Executive and Supreme Court. The controversy has now culminated in the Court withdrawing the license and requesting the Ministers to resign either one position or the other. Señors Tagle and García Cadenas have consequently resigned their seats in the Supreme Court.

A TRYING SITUATION.
Señor Vallarta's intentions are unknown. He is greatly embarrassed, however, as he is Chief Justice, and would succeed to the Executive chair in case of a vacancy. Besides, he is reluctant to relinquish either the position of Minister or the Chief Justiceship. Vallarta is also the most prominent candidate for the next Presidency. His enemies are consequently exulting over the trying position in which he is placed. It is probable that the Court will extend a further license to Vallarta, if it is considered impolitic that he should leave the State Department before the settlement of the American question.

ON APRIL 30 Minister Foster gave an official dinner to President Díaz.
Nothing has transpired regarding Lerdo, a rising on the Rio Grande or fresh border troubles.

FREIGHT ENGINE WRECKED.
PORT JARVIS, N. Y., May 11, 1878.
About nine o'clock last evening engine No. 84, attached to an eastward bound freight train, was thrown down an embankment one mile east of this station, badly wrecking it and injuring the engineer, who was compelled to jump. Obstructions had been placed in the track at that point, it is supposed by tramps, with the intention of stopping the passenger train which passed over the road about an hour and a half before.

HAPPY PARIS.

Continued Rejoicing Over the Great Exposition.

THE AMERICAN EXHIBIT.

Nearly in Order—A Creditable Display.

GENERAL GRANT PAYS A VISIT.

His Pleasant Sojourn and Future Programme.

PARISIAN PROFITS.

[BY CABLE TO THE HERALD.]

PARIS, May 11, 1878.
The great Exposition continues to be the uppermost topic in this city, which never better deserved the epithet of the gay capital than now. Marked progress has been made in all the departments, particularly the American section, where another week will, it is to be hoped, find everything complete.

A FINE EXHIBIT.
Tiffany's exhibit is attracting universal attention for beauty and originality of design and perfection of workmanship. Nothing of the kind in the Exhibition approaches their models. Their laminated silver combinations and niello ware are themes of general admiration.

THE SCHOOLMASTER ALL ABROAD.
The educational exhibition, with its various appliances, which will be one of the most interesting features of our department, has not yet been located.

RAILROAD INVENTIONS.
A beautiful model of a Pullman palace car excites general curiosity in the machinery annex. Our steam engines, our compressed air brakes and labor saving machines equally sustain our character for practical ingenuity.

EDISON'S INVENTIONS.
Space has been reserved for Edison's telephone and phonograph and other inventions, which will be daily exhibited.

OIL PAINTINGS.
The fine art collection of the Exhibition is remarkable both for the number and high quality of the works exhibited. Some idea may be gathered from the fact that the artists and art patrons of the various countries have contributed the following number of oil paintings:—France, 801; Great Britain, 283; United States, 86; Sweden, 82; Norway, 38; Spain, 115; Hungary, 61; Russia, 144; Switzerland, 93; Belgium, 300; Greece, 44; Denmark, 76; Holland, 102; Italy, 166; Luxemburg, 2; Republic of San Marino, 2; Peru, 3; Japan, 2; Hayti, 1; Uruguay, 4. The German collection has not yet been opened.

WATER COLORS.
Besides these there are innumerable water colors, pastels and architectural designs.

SCULPTURE.
The statuary, and particularly the Italian contribution thereto, includes many fine specimens of the sculptor's art.

MECHANICAL WONDER.
Among the many mechanical curiosities of the Exhibition is an automaton swimmer, who nates in a tank with the grace of a professor of the art and the tirelessness of a Society Islander. There is also an automaton preacher, who has only to be wound up and off he goes, carrying out Carlyle's idea of a cast iron parson to the letter.

SOCIAL REJOICINGS.
Dinners, balls and fêtes succeed each other with bewildering rapidity. Ministerial and private entertainments innumerable are given. The event of the week in this respect was the grand ball given to the Prince and Princess of Wales by the Prince de Salgon. It was a magnificent affair. Twelve hundred invitations were issued.

BRILLIANT EFFECTS.
The electric light plays a great part in these fêtes. In the garden its effect is perfectly fairy-like. It has just been introduced on the stage at the Théâtre de Châtelet.

GOOD FOR PARIS.
The Exhibition is doing a world of good to Paris. The returns of the octroi show an increase in the import duties on goods received at the Paris barriers since the opening of the Exhibition of 1,500,000 francs (\$300,000) over the corresponding period of last year. This means that Paris is laying in provisions to feed an immensely increased population during the Exhibition. The receipts from wine alone have been enormous.
